Re. Request for Information Pursuant to Section 104(e) of CERCLA for the Lower  
Duwamish Waterway Superfund Site, Seattle, Washington  
—Long Painting Company

Dear Mr. Fidis:

We represent Long Painting Company ("Long Painting") pertaining to the above referenced CERCLA Section 104(e) request issued by EPA on May 22, 2012 (the "Request"). The purpose of this letter is to request a ninety day extension to respond to the request until October 22, 2012.

Long Painting is diligently working to identify, review and assemble records responsive to the Request. However, given the scope of the request and volume of potentially responsive information, additional time is required to respond. Moreover, due to my personal unavailability as a result of an upcoming trial scheduled for four weeks, I will be unavailable to assist Long Painting in preparation of its response based upon the current deadline. Accordingly, a one time ninety day extension is appropriate.

We look forward to cooperating with EPA to provide a timely and complete response to the Request and appreciate your consideration of this extension request. I am available to discuss this matter further with at any time.

Sincerely,

VAN NESS FELDMAN GORDONDERR

  
Dale Johnson
